2 Description of Work:

Selection of Charge Point Operators (CPOs) for Survey, design, supply, including civil works related to site preparation for installation, testing, commissioning, operations and maintenance for 169 no's of Public Charging Stations to be set up under PM E-drive scheme for the Contract Period of 10 years, in accordance with the parameters specified in the MHI Operational Guidelines for Deployment of EV Public Charging Stations dated 26 September 2025, including any amendments thereto.

3 About PM E Drive Scheme

Government of India has approved the PM Electric Drive Revolution in Innovative Vehicle Enhancement (PM E-DRIVE) Scheme with an outlay of INR 10,900 crore, vide Gazette notification S.O. 4259 (E) on 29th September 2024. The key objective is to accelerate EV adoption by establishing a robust network of EV Public Charging Stations (EV PCS).

The Ministry of Heavy Industries (MHI) has earmarked INR 2,000 crore for public charging infrastructure under PM E DRIVE scheme as per the Operational Guidelines issued on 26.09.2025.

Tender Notice No:- TGREDCO/ EVI/PM E Drive/2026-27, Dt: 02-09-2026

The scheme will provide subsidies for deployment of EV Public Charging Stations and Battery Swapping Stations (BSS) / Battery Charging Stations (BCS). The subsidy shall primarily be provided for upstream infrastructure costs and Electric Vehicle Supply Equipment (EVSE) costs, in accordance with the applicable categories defined under the PM E-Drive Scheme.

The subsidy will be calculated as a percentage (%) of either the benchmark costs (published by Bureau of Energy Efficiency (BEE), MoP / MHI and as amended from time to time) or the actual costs, whichever is lower. All refundable deposits and GST shall not be eligible for subsidy both for upstream Infrastructure and EVSE.

The scheme has a flexibility of funding for establishment of charging infrastructure, to the extent of 100% of cost (including upstream infrastructure) of the project.

The scheme will support the following categories of EV Charging Stations along with proposed subsidies as detailed in Table below:

Category	Locations	% Subsidy / Infrastructure Deployment
A	State / Central Govt. Premises – Govt. offices, residential complexes, hospitals, educational institutes, CPSEs, or any other govt. establishments (with free public access)	100% on Upstream Infrastructure 100% on EVSE
B	Locations in cities and along highways - which are owned / controlled / managed by State / Central Govt or their public sector undertakings e.g. Railway stations, airports (operated & maintained by Airports Authority of India), retail outlets of public sector OMCs, bus stations operated by STUs, metro stations, municipal parking lots, public sector ports and NHAI / State govt controlled / managed toll plazas & way-side amenities on highways / expressways.	80% on Upstream Infrastructure 70% on EVSE
C	All other Locations not included in categories A & B, e.g. Cities - Streets, shopping malls, market complexes etc. Highways/Expressways	80% on Upstream Infrastructure only.
D	Battery Swapping Stations (BSS) / Battery Charging Stations (BCS) deployed at any Location	80% on Upstream Infrastructure only.

Benchmark costs of EVSE

The table below presents the benchmark costs for EVSE across various charger capacities, as published by MHI, on 19th December 2025. EVSE consists of EV charger including charging guns.

For EV Supply Equipment

Connector Type	Rating	Cost (INR Lakh) (Inc GST)
LEVDC / AC/DC Combo	12 Kw	1.6
CCS-II	60 kW	3.4
CCS-II	120 kW	5.0
CCS-II	240 kW	8.0
CCS-II	360 Kw	12.50

For Upstream Infrastructure

The subsidy for upstream infrastructure costs will be as per the demand note issued by the State DISCOMs.

The upstream infrastructure typically includes a distribution transformer, LT and HT cables, AC distribution boxes, circuit breakers/isolators and other protection equipment, tubular or PCC mounting structures, fencing and civil works.

4 Subsidy Disbursement

4.1 Disbursement of first tranche

The first tranche amounting to 70% of the eligible subsidy shall be released, subject to the submission of an undertaking certifying the following:

- Demand notes for upstream infrastructure paid to DISCOMs.
- Procured EV chargers are compliant with Phased Manufacturing Programme (PMP) guidelines, as amended from time to time.
- Procured EV chargers are in accordance with the charging standards as defined in MoP guidelines.

4.2 Disbursement of second (final) tranche

- Following commissioning and energization, the nodal agency(ies) shall submit an undertaking for the release of the second (final) tranche (30% of the subsidy), certifying the following:
 - Installed EV PCS have been successfully commissioned and energized.
 - Procured EV chargers are compliant with PMP guidelines.
 - Installed EV chargers have been onboarded on the “National Unified Hub” being developed by MHI.

5 Charging Standards

To be eligible under the PM E-DRIVE Scheme, charging infrastructure must comply with Ministry of Power (MoP) guidelines issued vide No. 12/2/2018-EV (Comp No. 241852) dated 17th September 2024 on the subject “Guidelines for Installation and Operation of Electric Vehicle Charging Infrastructure-2024” or as amended from time to time* The charging standards applicable under PM E-DRIVE scheme are as follows:

Segment	Charging Connector Standard	Charger Capacity
e-2Ws / e-3Ws	Light EV DC (IS-17017-2-6)	12 kW
	Light EV AC/DC Combo (IS-17017-2-7)	12 kW
e-4Ws and e-buses / e-trucks	CCS-II (IS-17017-2-3)	DC 60 kW to 240 kW
e-buses / e-trucks	CCS-II (IS-17017-2-3)	DC High Power 240 kW to 500 Kw

6 Scope of Work

- The Bidder shall, at its own cost and risk, undertake the survey, design, supply, including civil works related to site preparation for installation, testing, commissioning operations and maintenance for 169 no's of Public Charging Stations at 116 No's locations to be set up under PM E-drive scheme for the Contract Period of 10 years, in accordance with the parameters specified in the MHI Operational Guidelines for Deployment of EV Public Charging Stations dated 26 September 2025, including any amendments thereto.
- Presented below is the list of EVPCS grouped into five clusters, encompassing strategic and high-demand locations distributed across the city.

	No. of Locations	No. of EV PCS
Cluster 1	26	42
Cluster 2	26	42
Cluster 3	18	27
Cluster 4	22	31
Cluster 5	24	27
Total	116	169

7 Site Visit

Tender Notice No:- TGREDCO/ EVI/PM E Drive/2026-27, Dt: 02-09-2026

bills together with proof of payment shall be furnished to TGREDCO along with the monthly operational report.

22.12 Any arrears, late payment surcharge, penalty, disconnection or reconnection charges arising from delayed payment or non-payment of electricity bills shall be to the sole account of the successful bidder, who shall keep TGREDCO fully indemnified in that behalf. Non-payment of the electricity bill by the due date, or disconnection of supply on that account, shall constitute a material breach of the Agreement, and TGREDCO shall be entitled, without being obliged to do so, to pay such dues and recover the amount so paid together with interest from the Performance Security Deposit / Performance Bank Guarantee or otherwise as arrears, in addition to any other action open to it under the Agreement.

22.13 Any penalties imposed on account of non-achievement of service levels, failure to maintain minimum uptime, safety violations, encroachments or breach of contractual obligations may be adjusted against the Performance Security Deposit or recovered separately by TGREDCO.

22.14 Failure to remit the Monthly Charges for a continuous period of 3 months shall constitute a material breach of the Agreement and may result in termination of the Service and forfeiture of the Performance Security Deposit, at the sole discretion of TGREDCO.

23 Penalty and Service Level Requirements

23.1 The successful bidder shall ensure a minimum uptime of ninety-five percent (95%) for each EV Charging Station in a calendar month. Failure to maintain the prescribed uptime shall attract penalties as specified below:

S. No	Parameter	Service Level Requirement	Penalty
1	Charger uptime	Minimum 95% uptime per month	₹500 per charger per day of downtime beyond permissible limits
2	Service Charges	Bidder shall levy service Charges on end user's maximum of ₹13/kWh, exclusive of applicable taxes.	2 times the tariff charged on the end users

23.2 Downtime arising solely due to power supply interruptions or other failures attributable to the concerned DISCOM shall be excluded from uptime calculations, subject to submission of supporting documents, outage reports and other evidence satisfactory to TGREDCO within seven (7) days. Failure to furnish such evidence shall result in the downtime being considered for penalty calculations.

23.3 In addition to the penalties specified above, repeated failure to meet service-level requirements for three consecutive months or five instances during a contract year may constitute a material breach of the Agreement and may result in forfeiture of the Performance Security Deposit,

termination of the Agreement and/or blacklisting of the bidder, at the sole discretion of TGREDCO.

- 23.4** The penalties imposed under this clause shall be remitted along with the monthly payments due, adjusted against the Performance Security Deposit or recovered through any other means deemed appropriate by TGREDCO.
- 23.5** The imposition of penalties shall not absolve the successful bidder of its obligation to rectify the deficiencies and comply with the provisions of the Agreement.
- 23.6** The aggregate penalties levied under this clause in any contract year shall not exceed ten percent (10%) of the Annualized Monthly Charges payable for the allotted cluster for that year. Penalties in excess of this limit shall, at the sole discretion of TGREDCO, be dealt with as a material breach under sub-clause (3) above

24 Post Award Compliances:

Timely completion of all the milestones will be the sole responsibility of successful bidder. TGREDCO shall not be liable for issuing any intimations / reminders to successful bidders for timely completion of milestones and / or submission of compliance documents.

- vii. The Bidder shall ensure that Procured EV chargers comply with Phased Manufacturing Programme (PMP) guidelines issued by MHI, as amended from time to time.
- viii. The Bidder shall be solely responsible for entering into lease or other requisite agreements directly with the land-owning agency/authority concerned under Category C. All costs, permissions, charges, and obligations arising therefrom shall be borne exclusively by the Bidder.
- ix. For Category A & B, the bidder is responsible for getting necessary approvals for allotment of land from the respective land owning agencies (As per the locations). TGREDCO will provide necessary facilitation and enter into revenue sharing agreement with the land owning agencies.
- x. The Bidder shall independently obtain the required electricity connection(s) from the concerned Distribution Licensee under the applicable HT or LT category based on the connected load of each charging station and shall bear all associated costs.
- xi. The Successful Bidder shall pay the electricity consumption bills for each Charging Station to TGNPDCL or the concerned Distribution Licensee, as per the bill generated and within the due date specified therein, and shall keep the service connections free from arrears and free from risk of disconnection throughout the Contract Period.
- xii. Electricity charges shall be payable in accordance with the tariff determined by TGERC, as amended from time to time. The Bidder may alternatively procure power through Open Access in accordance with the applicable regulatory framework and shall remain solely responsible for payment of all applicable wheeling charges, banking charges, surcharges, Charges, and other statutory levies.
- xiii. Charging stations developed under this RFP shall be eligible for incentives under the PM E-DRIVE Scheme, subject to compliance with the applicable scheme guidelines. TGREDCO shall make reasonable efforts to facilitate processing of subsidy claims with the Ministry of Heavy Industries (MHI). However, the Bidder shall be solely responsible for fulfilling all eligibility conditions, documentation requirements, and procedural compliances for availing such subsidy. TGREDCO shall bear no liability for any delay, rejection, or non-release of subsidy by MHI.
- xiv. Chargers shall be accepted and considered eligible for release of PM E-DRIVE subsidy only on a cluster-wise basis, upon commissioning of all chargers across all categories within the respective Cluster
- xv. The Bidder shall obtain and maintain all statutory approvals, licenses, permits, inspections, and clearances required for establishment and operation of the charging stations, including but not limited to Fire NOC, Electrical Inspector approvals, earthing compliance, and other applicable regulatory approvals.
- xvi. The allotted Locations shall be utilized exclusively for the establishment and operation of Electric Vehicle Public Charging Stations. The premises shall not be used for any unrelated

activity including retail sales, commercial operations, food and beverage outlets, warehousing, third-party business activities, advertising, or any other purpose. Branding associated exclusively with the EV charging station shall, however, be permitted in accordance with PM E Drive guidelines.

- xvii. The Bidder shall be fully responsible for ensuring the safety, security, and protection of the EV charging infrastructure, associated electrical systems, upstream infrastructure, and vehicles using the charging facilities throughout the Contract Period.
- xviii. Throughout the duration of the Agreement, the Bidder shall procure and maintain comprehensive insurance coverage at its own cost for the charging infrastructure, associated equipment, vehicles utilizing the charging station, and third-party liabilities. The insurance policy shall adequately cover risks including, but not limited to, fire, electrocution, electrical or mechanical failure, theft, burglary, accidental damage, third-party injury, property damage, and the HT/LT upstream infrastructure. Documentary evidence of valid insurance coverage shall be submitted to TGREDCO annually or whenever sought.
 - i. The Bidder at his own cost equip CCTV surveillance systems at every charging station and the system shall be capable of recording and securely storing footage for a minimum period of three (3) months for monitoring, security, and compliance purposes and such data shall be submitted to TGREDCO as and when required by TGREDCO.
- xix. The Bidder shall establish, operate, and maintain its own Central Management System (CMS) together with the associated mobile/web application. Secure access to the CMS shall be provided to TGREDCO for monitoring purposes. The system shall support integration with TGREDCO and any designated national, state, private, or market platforms through secure APIs, as directed from time to time. Upon commissioning, all charging stations shall be onboarded to the National Unified Hub developed by MHI. The CMS shall provide real-time information including charger availability, applicable tariffs, digital payment options (including UPI platforms), advance booking facilities, and such other information necessary to ensure transparency, centralized monitoring, and improved user experience.
- xx. All charging stations shall be onboarded onto the National Unified Hub developed by MHI, immediately upon commissioning. The following data shall be made available from such platforms and shared in real time:
 - a. Availability status of chargers with real time status updates
 - b. Applicable charging Charges, along with facilitation of digital payments
 - c. Slot booking provisions
 - d. This integration shall promote ease of access for users, ensure greater transparency, and support centralized oversight and monitoring.
- xxi. TGREDCO operates the “TGEV” mobile application for facilitating EV charging services to end users. All EV Charging Stations to be listed and fully operational on the TGEV

application throughout the Contract Period. The successful bidder shall not remove, delist, deactivate, hide or suspend any charging station from the TGEV application at any time, for any reason.

- xxii. The Bidder shall furnish monthly operational reports containing, inter alia, charger utilization, energy dispensed, uptime statistics, and other operational parameters as prescribed by TGREDCO. The charging stations shall maintain a minimum average monthly uptime of 95% per Location, excluding outages resulting from grid power interruptions or Force Majeure events. Performance shall be monitored by TGREDCO through integrated dashboards.
- xxiii. The Bidder shall establish and operate a dedicated 24×7 customer support and grievance redressal mechanism to provide operational assistance and address consumer complaints.
- xxiv. A detailed grievance report indicating complaints received, action taken, and resolution status shall be submitted to TGREDCO on a fortnightly basis.
- xxv. The Commercial Operation Date (COD) for each Location shall be achieved within 150 days from the Appointed Date. Any extension shall require prior written approval from TGREDCO and shall be granted only upon submission of satisfactory justification. Where possession of a Location is handed over after the Appointed Date, the period of 150 days shall be reckoned separately from the respective date of site handover. Such deferment shall not modify the Appointed Date or the overall Contract Period.
- xxvi. Where the Commercial Operation Date for a Location is not achieved within the period stipulated above, and the delay is not attributable to TGREDCO or to a Force Majeure event, the Successful Bidder shall be liable to pay liquidated damages at the rate of Rs. 1,000 (Rupees One Thousand only) per Location per day of delay, subject to a maximum of ten percent (10%) of the Annualized Monthly Charges payable for the allotted Cluster. Liquidated damages shall be recoverable from the Performance Security Deposit / Performance Bank Guarantee or otherwise, and shall be without prejudice to the right of TGREDCO to treat continued delay as a material breach of the Agreement.
- xxvii. COD certification will be issued jointly by TGREDCO or its representative and CPO, subject to test report & integration to National Unified Hub that must be validated by MHI dashboard.
- xxviii. Subject to the prevailing legal and regulatory framework, the Bidder shall have the right to generate, own, retain, and commercially trade carbon credits or other environmental attributes arising from the project.
- xxix. Ownership and hand-back on expiry: Upon expiry or earlier termination of the Agreement, the Charging Stations, chargers, upstream and downstream electrical infrastructure, civil works, canopies and CCTV systems established at each Location shall vest in TGREDCO or in such agency as TGREDCO may nominate, free of cost and free from any lien, charge or encumbrance, and the Successful Bidder shall hand back the same in good working condition and free of all arrears of electricity, lease, municipal and statutory dues, without claiming any compensation whatsoever and for category A & B locations.

Tender Notice No:- TGREDCO/ EVI/PM E Drive/2026-27, Dt: 02-09-2026

- xxx. The Successful Bidder shall, not later than ninety (90) days prior to expiry of the Contract Period, submit a joint inspection report of all Locations in the allotted Cluster and shall extend full co-operation for smooth transition of the Charging Stations to TGREDCO or its nominee. Any asset found missing, damaged or non-functional at the time of hand-back shall be made good by the Successful Bidder at its own cost, failing which the cost thereof shall be recovered from the Performance Security Deposit / Performance Bank Guarantee and any balance recovered as arrears.
